

2021-22 WCVM EquineED Talks

VIRTUAL PANEL DISCUSSION | Equine health research

UNIVERSITY OF SASKATCHEWAN

Western College of
Veterinary Medicine

WCVM.USASK.CA

How does research improve your horse's health?

Join us for a free panel discussion on equine research and its impact on horses' lives.

7 p.m. CST, Tuesday, Feb. 8 | Zoom event

Moderator: Dr. Chris Clark, WCVM associate dean academic and associate professor

Discussion

- What's new in horse health research at the WCVM and Western Canada?
- How do your horses benefit from research studies conducted in the West?
- What are key horse health problems that researchers are working to solve?
- If you could choose a health issue that needs further research, what would it be?

Panellists

- **Dr. James Carmalt**, WCVM researcher
- **Dr. Joe Bracamonte**, WCVM researcher
- **Toni-Anne Saworski**, horse owner/competitor and WCVM graduate student
- **Shirley Brodsky**, horse owner/breeder and advisory board member, Townsend Equine Health Research Fund
- **Dr. Julia Montgomery**, WCVM researcher
