

Jeremy Brown is an agrologist with Ducks Unlimited Canada, based in North Battleford. This involves working with ranchers and farmers to promote healthy grasslands as nesting habitat for waterfowl. What enhances the sustainability of grasslands benefits the agriculture industry, the landscape and wildlife.

He has a Bachelor of Agriculture from the University of Saskatchewan. Jeremy was raised on a grain and cattle farm near Cut Knife, Sask. He lives on the family homestead with his wife, Marla, and their two children. They operate a custom grazing business.
