

WINTER | SPRING 2020

BRINGING ONE HEALTH TO LIFE

DISCUSSION SERIES

Not on the grocery list but still in the grocery bag

One Health and
your food supply

GUEST SPEAKER

Dr. Peter Thompson, PhD
Research Zoologist
U.S. Department of Agriculture
Agricultural Research Service

Dr. Thompson is a biologist who specializes in the ecology and evolution of parasites. His research uses genomics and bioinformatic tools to investigate the evolution of parasites, biodiversity, emerging infectious disease, food safety and natural resource management.

5-7:30 p.m.
Thursday, March 5
Louis' Loft, USask
